Rafael Ramirez, a member of the Ute Indian Tribe in Utah, was working as a Building and Grounds worker, had some electrical experience, and had a vision to get certification in the Photovoltaics Program in order to broaden his employment opportunities within the solar & energy industry.

Mr. Ramirez drove all the way from Utah to enroll in the Photovoltaics Program at East LA Skills Center with the help and support of his Tribe. He successfully completed Photovoltaics one, two, and three and received certification. He returned to Utah to help his family and community with brighter horizons in the Photovoltaics field.

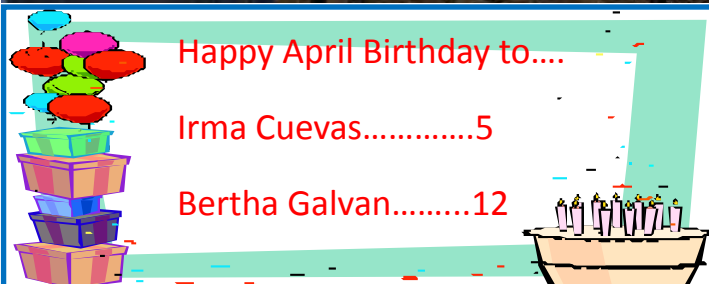

Congratulations Rafael and we wish you the best of luck!
