Our School uses

remind

For school communications

Remind is an easy to use app that allows you to receive notifications and announcements from your teacher and our academic program. It also allows you to communicate directly to your teacher through text messaging. You do not need to download anything to your phone or computer. Simply enter your information below and your teacher will include you with your class.

Techers use **remind** to send information about homework due dates, vacations, and campus programs. You may receive 1 – 2 announcements a week. Students and parents can use remind to communicate back to the teacher about attendance, homework, and progress.

I would like to add **remind** to:

□ My Cell phone _____ as a text message. Student understands that he/she is responsible for any text message cost based on their own phone plan.

□ My Email address _____ Print Neatly

If student is a minor, would the parent like to be included in school communication? □ YES   □NO

   If yes, Parent cell phone or email (for announcements) _____

        You may opt out of remind announcements, by following the directions on the message.

Note:

- Only the teacher will see your name or contact information, not other students
- Only the teacher may send communications to the entire class.
- Only the teacher can see your responses
- You can save the **remind** text phone number to contact the teacher during school hours.

Name of Student_____ Date _____

Student signature_____ Parent Signature (if minor) _____
