Positive Behavior Intervention Support

Two additional presentations at Eastside of the Positive Behavior Intervention Support project took place at Eastside on Wednesday, August 4, 2019. Ms. Cuevas translated to the audience during the first session. The second session was conducted in English only. Ms. Farnsworth has now concluded the initial phase of the project. Now the distribution of Skills Bills begins. Our students and staff seem very motivated to undertake the second phase of the program. More information to come.

In a recent poll conducted by Edmentum, 200 Educators Weighed In on How Administrators Impact School Culture. They asked educators two important questions:

1. What has your administrator done well to foster a positive school culture?
2. What is one thing your administrator could do to improve your school culture?

This is what they said:

- Educators want an administrator who communicates well and maintains a strong presence around their school.
- Educators want an administrator who celebrates their success and provides opportunities for career growth.
- Educators want to be heard and to be treated as professionals.
- Educators want more holistic support for their students.
